

— An agent on Polymarket

A bot reads Polymarket. The money goes to you.

CyberBot is your personal agent on Polymarket, a market for predictions about the future. It works every day and records every step in a log that anyone can check.

- Analyses the market
- Places bets
- Withdraws money

All of it runs on its own — you do nothing

\$50 NANO

the most affordable package

+190%

profit over 90 days — packages
from \$360

15%

of a friend's first purchase

p. 20

Your personal agent on Polymarket

Polymarket is a prediction market: people buy and sell answers to questions about the future — in sports, politics, the economy. The price of an answer is the chance the market gives it.

How to read a price on Polymarket

Company

CYBERBOT LTD, company number SC565548

Registered in Scotland on 10 May 2017. The CyberBot project itself launches in 2026.

How to start – five steps

Signing up and topping up take a few minutes. Your first money on the withdrawal balance comes after your first session.

1

Sign up by invitation

You need the promo code of the person who invited you. Their link fills it in for you.

Promo code  filled in

2

The TaviChat app

Install TaviChat (links on p. 18) and connect it to your dashboard: the app brings you money notifications and support.

TaviChat

3

Top up in USDT

Open “Wallet”, choose a network — BNB Chain or Tron — and send USDT to your address. The money lands on your purchase balance.

USDT

4

Pick a package

Packages start at \$50. The price comes off your purchase balance, and the package runs for 90 days.

NANO

\$50

5

One session a day

Once a day, press “Earn” on the “AI agent” page — the agent does the rest. When the session ends, the daily amount arrives on your withdrawal balance.

Earn +\$1.11

Everything runs from your phone: your dashboard opens from TaviChat with one button.

Every line can be checked

The bot's log, screenshot from 25/09/2026

The bot records everything it does: which markets it read, how the price moved, which bets it placed and how they ended. The log is open to everyone — you can look before you even sign up.

The same market on polymarket.com

Look up the market from any line on polymarket.com — same question, same outcome.

Polymarket decides, not us

That's why losses show up in the log just like wins.

Price as of the entry

Market prices change every minute: match the market and the outcome — the price may differ slightly.

The log is open here
cyberbot.systems/log

— Packages

Packages from \$50 to \$20,000

Every package runs for 90 days. Each has its own price, daily amount and session length — all shown on the card before you pay.

NANO \$50 Per day +\$1.11 Pays back in 45 days Session 60 min ✓ Open right away	START \$150 Per day +\$3.34 Pays back in 45 days Session 60 min ✓ Open right away	CORE \$360 Per day +\$11.61 Pays back in 31 days Session 60 min ♂ Key: 110 🪙
PLUS \$850 Per day +\$27.42 Pays back in 31 days Session 90 min ♂ Key: 260 🪙 🔒 Opens at 700 on the scale	PRO \$1,500 Per day +\$48.39 Pays back in 31 days Session 120 min ♂ Key: 450 🪙 🔒 Opens at 1,200 on the scale	MAX \$3,600 Per day +\$116.13 Pays back in 31 days Session 150 min ♂ Key: 1,080 🪙 🔒 Opens at 2,900 on the scale
ULTRA \$6,700 Per day +\$216.13 Pays back in 31 days Session 180 min ♂ Key: 2,010 🪙 🔒 Opens at 5,400 on the scale	TITAN \$14,500 Per day +\$467.75 Pays back in 31 days Session 210 min ♂ Key: 4,350 🪙 🔒 Opens at 11,700 on the scale	QUANTUM \$20,000 Per day +\$645.16 Pays back in 31 days Session 240 min ♂ Key: 6,000 🪙 🔒 Opens at 16,100 on the scale

How packages unlock

- Your first purchase can be NANO, START, or CORE, and once the scale reaches 700, PLUS too. Higher packages come only after your first purchase.
- **Key** — how many tokens (🪙) it takes to unlock a package. You get tokens for missions in your dashboard, and you can also buy them.
- **Mark** — a number on the platform growth scale. Every user with an active package moves the scale; when it reaches the mark, the package goes on sale for everyone (p. 9).

The daily amount arrives after the session. Payback is the price divided by the daily amount, rounded. Figures from the site as of 25/09/2026.

— How much you can earn

Over 90 days, CORE and higher packages bring in almost three times their price

Each package has its own daily amount, shown on the card before you buy. Run a session every day, and over the package term you get this much:

+190%

profit over 90 days — CORE and up

+100%

profit over 90 days — NANO and START

31–45

days to pay back

Package	Price	Per day	Over 90 days	Profit
● NANO	\$50	+\$1.11	\$99.90	+100%
● START	\$150	+\$3.34	\$300.60	+100%
● CORE	\$360	+\$11.61	\$1,044.90	+190%
● PLUS	\$850	+\$27.42	\$2,467.80	+190%
● PRO	\$1,500	+\$48.39	\$4,355.10	+190%
● MAX	\$3,600	+\$116.13	\$10,451.70	+190%
● ULTRA	\$6,700	+\$216.13	\$19,451.70	+190%
● TITAN	\$14,500	+\$467.75	\$42,097.50	+190%
● QUANTUM	\$20,000	+\$645.16	\$58,064.40	+190%

Three sources of income

Package

The daily amount after every session

+

15% from friends

Of the first purchase of everyone you invited

+

Leader rewards

5% of your friends' sessions, plus cash quests for team growth

Calculation: daily amount × days, with a session every day — as on the “Packages” page in your dashboard.

— How packages grow

Upgrade your package — pay only the difference

Packages form a ladder from the smallest to the largest. The higher the package, the bigger the daily amount, the longer the session and the more powerful the agent.

Package	Per day (scale compressed)	Price
● NANO	 +\$1.11	\$50
● START	 +\$3.34	\$150
● CORE	 +\$11.61	\$360
● PLUS	 +\$27.42	\$850
● PRO	 +\$48.39	\$1,500
● MAX	 +\$116.13	\$3,600
● ULTRA	 +\$216.13	\$6,700
● TITAN	 +\$467.75	\$14,500
● QUANTUM	 +\$645.16	\$20,000

One step up

You can only upgrade to the next package by price: no skipping steps.

Exception: NANO → CORE

From NANO you can go straight to CORE, skipping START.

What you paid counts

If you move to a higher package while your current one is running, its price goes toward the new one — you pay only the difference.

You can always renew

Term over? Buy the same package again, or the next one.

Example: CORE → PLUS

\$490

you pay: \$850 – \$360

+\$15.81

per day: \$11.61 → \$27.42

+\$1,422.90

more over 90 days than on CORE

The more people join, the faster new packages appear

Higher packages go on sale as the platform growth scale rises. The more people buy packages, the faster the scale reaches the next mark — and that package goes on sale for everyone.

On sale since launch

NANO, START, and CORE

Scale mark

Package and daily amount

700		PLUS	+\$27.42 per day
1,200		PRO	+\$48.39 per day
2,900		MAX	+\$116.13 per day
5,400		ULTRA	+\$216.13 per day
11,700		TITAN	+\$467.75 per day
16,100		QUANTUM	+\$645.16 per day

Invite people: you get 15% of their first purchase, and the scale reaches the next package faster.

The scale and its marks are in your dashboard: “Packages” → “Platform growth scale”. Once a package is on sale, you can unlock it for yourself with tokens (p. 10).

Tokens are the key to packages

1  = \$0.50

They unlock packages from CORE up; you still pay the package's own price.
Unlock a package once and it stays open forever.

How many tokens it takes to unlock a package

CORE 110  \$55	PLUS 260  \$130	PRO 450  \$225	MAX 1,080  \$540
ULTRA 2,010  \$1,005	TITAN 4,350  \$2,175	QUANTUM 6,000  \$3,000	✓ NANO and START are open without tokens

Where to get tokens

 Missions Up to 20  per mission — the amount is on the card	 Freeze 5 to 50  per \$100 — if you wait until the term ends	 Buy \$0.50 per token — from your purchase balance
--	---	--

Three ways to unlock CORE (110)

- Complete missions — they earn you tokens
- Or buy 110  for \$55 from your purchase balance
- Or join via a leader's link with a \$35 bonus: while the bonus lasts (3 days), CORE is open without tokens

✓ You don't need tokens to withdraw money.

📁 You can gift tokens only to people you invited personally, with a 10% fee.

Complete missions — get XP and tokens

Your dashboard always has missions: simple actions with a reward you collect in one tap.

Complete a mission, press “Claim” — the reward is yours

Rewards are XP, which raises your level, and tokens, which unlock packages.

XP

Tokens

Every day

Bring a friend who buys a package from CORE up

Every week

Tell people about CyberBot on social media

At the start

First steps: first session, first withdrawal, notifications

How much XP everyday actions give

30 XP

for every session

70 XP

max for checking in — grows with your day streak

1,000 XP

max for buying a package — the pricier, the more

300 XP

for a friend's first top-up

2,500 XP

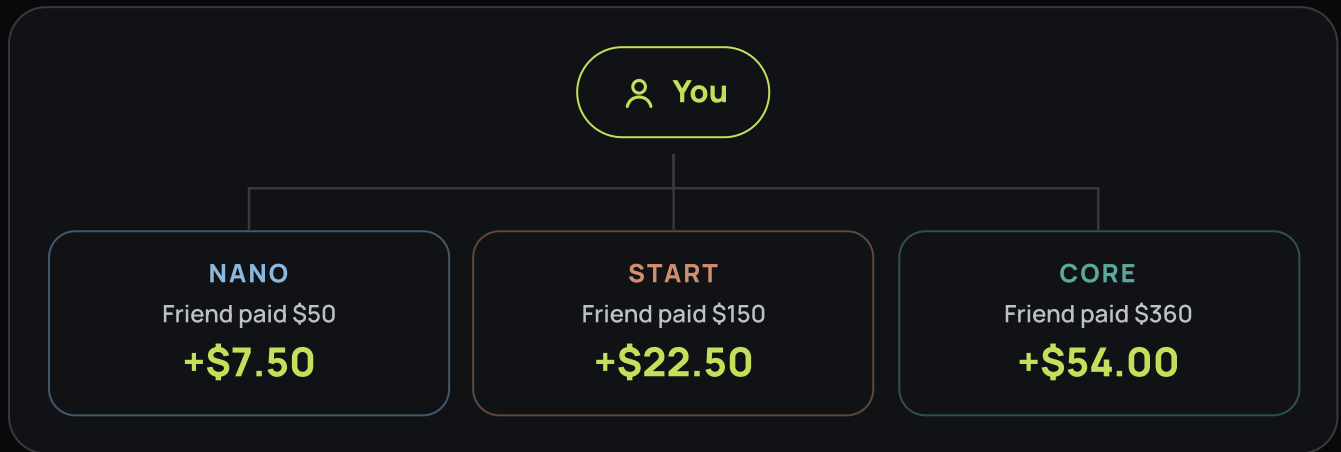

for a friend's first package

Levels 1 to 100. Your level shows next to your name in the dashboard and in TaviChat.

15% of every friend's first purchase

The “Referrals” section has your link and promo code. When someone you personally invited buys their first package, you get 15% of its price.

Once you have 10 active partners, you become a leader: 5% of every session run by people you personally invited, on any of their packages, plus money for team growth. More on the next pages.

How to invite

1

Copy your link or promo code in the “Referrals” section

2

Your friend signs up via the link — the promo code fills in by itself (or type it in)

3

Your friend buys their first package — you get 15%

To your withdrawal balance

A few minutes after your friend's purchase. You can withdraw even without a package of your own — as long as you have no freeze running.

XP for friends

+300 XP for a friend's first top-up, +2,500 XP for their first package.

Active partner

A friend who bought a package from CORE up. Ten active ones — and you're a leader.

The 15% is paid only on a friend's first purchase — not on upgrades or renewals. If a friend came via a leader's bonus link and bought a package while the bonus was active, you don't get the 15%: instead, they get \$35 to start with.

Become a leader — and earn as your team grows

Leader is a status for those who have built their own team. It's granted automatically as soon as the tenth person you personally invited buys CORE or a pricier package, and it stays forever.

10 active partners — and you're a leader

1

2

3

4

5

6

7

8

9

10

5% of your personal invitees' sessions

From every session run by people you personally invited, on any of their packages, you get 5% — on top, so their income doesn't shrink. Example: 10 friends on CORE — about \$5.80 a day, \$174 a month.

Team office

Team stats: who's active, who has no package. A broadcast to your team once a day, plus direct messages.

\$35 bonus link

A newcomer who signs up with it instantly gets \$35 toward CORE or a pricier package; while the bonus lasts (3 days), CORE is open to them without tokens. Your 15% isn't paid on such a purchase — the bonus replaces it.

+\$15 for each new leader

When someone you personally invited becomes a leader themselves.

Cash quests

Monthly rewards for team growth, plus one-time team-size bonuses of up to \$8,000.

An active partner stays active forever, even after their package ends.

Money for team growth: monthly and one-time

Every month a leader gets team quests with cash rewards and, as the team grows, one-time bonuses. Everything goes to your withdrawal balance.

Monthly quests up to \$420

A package upgrade in the team

One of your personal invitees moved to a pricier package

\$40

New active partners

5 personal invitees bought a package from CORE up for the first time

\$60

Three upgrades in a month

Three different personal invitees moved to a pricier package

\$120

Big goal of the month

12 personal invitees bought a package from CORE up for the first time

\$200

Team size bonuses — one-time

25 active partners

\$150

50 active partners

\$400

100 active partners

\$1,000

250 active partners

\$3,000

500 active partners

\$8,000

Example: 25 friends joined in a month and bought CORE

For the first month

15% of their first purchases **\$1,350**

"25 active" bonus **\$150**

monthly quests for new partners **\$260**

total for the first month \$1,760

Every month while their packages are active

≈ \$435

5% of their sessions

over 90 days ≈ \$1,306

An example calculation with daily team sessions, not a promise. Only people you personally invited count; an upgrade means moving to a pricier package. Rewards are paid if, that month, one of your partners bought a package from CORE up or you ran 5 sessions yourself.

Your earnings – to your wallet

Your dashboard has two balances. Top-ups go to the purchase balance, which pays for packages. Everything you earn builds up on the withdrawal balance.

Purchase balance Top-ups arrive here; packages are paid from it	Withdrawal balance Session income, 15% from friends and rewards	 Your wallet USDT on BNB Chain (BEP-20) or Tron (TRC-20)	
\$40 minimum withdrawal	10% fee – lower with a freeze	≈30 minutes how long a payout usually takes	up to \$5,000 per request, up to \$20,000 a day

- ✓ You don't have to buy a package to withdraw: for example, you can withdraw your 15% from friends.
- ✓ You need the TaviChat app connected: payout notifications come through it.
- ✓ The first withdrawal to a new address from a browser is confirmed with a code from TaviChat. From the dashboard inside TaviChat, no code is needed.

How to withdraw

1 “Wallet” → “Withdraw”	2 Network and your wallet address	3 Amount – from \$40	4 Done – a notification in TaviChat
-----------------------------------	---	--------------------------------	---

Want to pay a lower fee and earn more? Use a freeze – see the next pages.

Don't withdraw — and earn more

Set part of your earnings aside for a term: a bonus is added to it every week, tokens arrive at the end of the term, and the fee on one request drops from 10% to zero.

Example: \$1,000 frozen for 180 days

Withdraw now

\$900

\$100 fee

→

Withdraw after 180 days

\$2,250

+\$1,250 bonus · 500 · 0% fee

+\$1,350 and 500 tokens on top

The longer the term, the bigger the bonus (example: \$1,000)

30 days

2% a week

4-week bonus	+\$80
tokens at the end	50
withdrawal fee	5%
you get	\$1,026

90 days

3.5% a week

12-week bonus	+\$420
tokens at the end	200
withdrawal fee	2%
you get	\$1,391

180 days

5% a week

25-week bonus	+\$1,250
tokens at the end	500
withdrawal fee	0%
you get	\$2,250

Six 30-day terms, or 180 days at once?

6 × 30 days		+\$587
2 × 90 days		+\$1,016
180 days at once		+\$1,250

- ✓ The bonus is added every week, and we tell you about each one in TaviChat. After the term, you have 30 days for one discounted request of up to \$5,000 — make it your largest.
- ✓ Changed your mind? You can unfreeze any day: the bonus is recalculated at 2% a week, and the tokens and discount are lost.
- ✓ You can freeze from \$40 to \$5,000. While the term runs, withdrawals are closed and this amount can't be spent either. The rest of your earnings can go into tokens.

Where to turn it on: "Wallet" → "Withdraw" → enter the amount → choose a freeze term.

A 180-day freeze plus friends

Every week, a bonus of 5% is added to the frozen amount, while your friends bring you income. All of it waits on your withdrawal balance until the term ends.

Freeze as much as you can

Earnings only, up to \$5,000. Over 180 days, \$1 becomes \$2.25 on your balance, plus 50 per \$100.

Invite friends

A friend buys their first package — you get 15% of the price: \$54 from CORE, \$22.50 from START, \$7.50 from NANO.

10 CORE friends — you're a leader

5% of the income from every session of your personal invitees, on top. On CORE, that's about \$0.58 per session.

At the end — a fee-free request

The first request within 30 days after the term — at 0%, up to \$5,000. The discount goes to the first one, so make it your largest.

Example: \$5,000 frozen for 180 days and 10 friends brought in on CORE

Freeze

Frozen	\$5,000
Bonus: 25 weeks × \$250	+\$6,250
Tokens at the end of the term	2,500

Friends

15% of purchases: 10 × \$54	+\$540
Leader 5%: 10 × \$0.58 × 60 days	+\$348

Total by day 180

\$12,138 · 2,500

You get: \$5,000 fee-free + \$7,138 at a 10% fee

≈ \$11,424

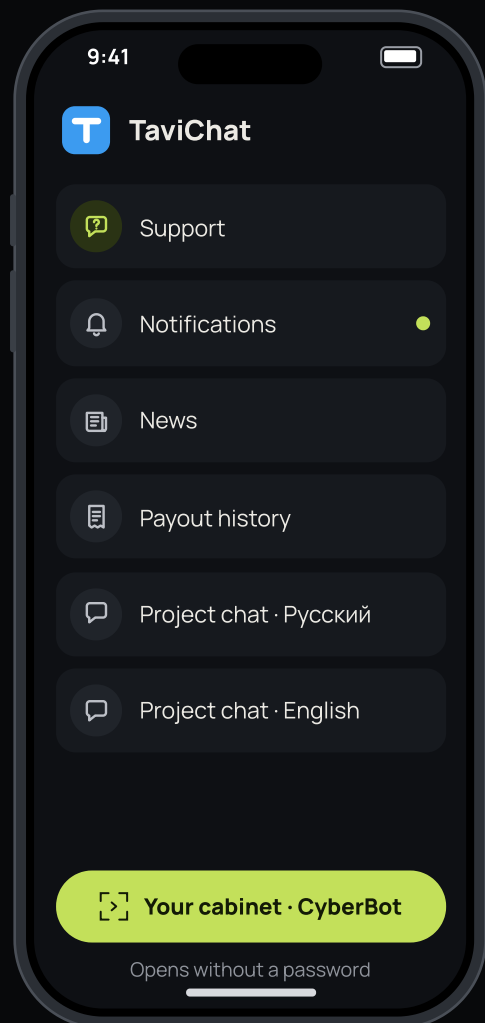

Without a freeze, the same \$5,000 gets you \$4,500. The freeze added about \$6,125 and 2,500 . The money from friends would have come anyway.

While the term runs, withdrawals are closed entirely — both the frozen amount and the money from friends. Change your mind? You can unfreeze any day: the bonus is recalculated at 2% a week, and the tokens and discount are lost.

All your conversations in one app

TaviChat is a messenger that your CyberBot dashboard connects to. It brings money notifications, support and a project chat with people from all over the world.

Money notifications

A message arrives as soon as a top-up is credited or a payout is sent.

Support in the app

Write in the “Support” chat — you get an answer within 24 hours, any day of the week.

Dashboard in one tap

The “Your cabinet · CyberBot” button opens your dashboard without a password.

Project chat

A separate room for each of 34 languages. Any message can be translated into any language.

News and payouts

Project news and “Payout history” — sent payouts with a blockchain link.

Statuses

Next to a person’s name you see their package, level and the “Leader” tag.

Download TaviChat — tap the badge or point your camera at the code

Download on the
App Store

for iPhone

GET IT ON
Google Play

for Android

A safe messenger

TaviChat has no private messages between users: nobody can DM you or send you spam. Only official support talks to you one-on-one.

No private messages

Users talk only in group chats. Another user can't message you privately.

One-on-one — support only

Only the project's official support talks to you one-on-one.

Project chat guard

Every message is checked before it's posted: links and phone numbers don't get through, and AI filters out attempts to lure people into other projects.

Report and block

You can report any message and block anyone you talk to.

Secure connection

All messages travel over an encrypted connection.

Your account, your control

You can delete your chat account right in the app, along with your messages.

How your money is protected

Protection works on its own. All you need is the TaviChat app — and, if you like, sign-in with a code (2FA).

Sign-in with a code (2FA)

You can turn on sign-in with a 6-digit code from Google Authenticator or Authy. Even with your password, a stranger can't get into your dashboard.

24-hour pause

After a password or email change, or a TaviChat sign-in from a new phone, withdrawals pause for 24 hours — in case it wasn't you.

New address confirmation

The first withdrawal to a new address from a browser is confirmed with a code from TaviChat. Without your phone, a stranger can't withdraw your money.

One person — one account

So bonuses and percentages go to real people, not to fake accounts.

Everything can be checked

The bot's log is open to everyone: every line can be checked against polymarket.com.

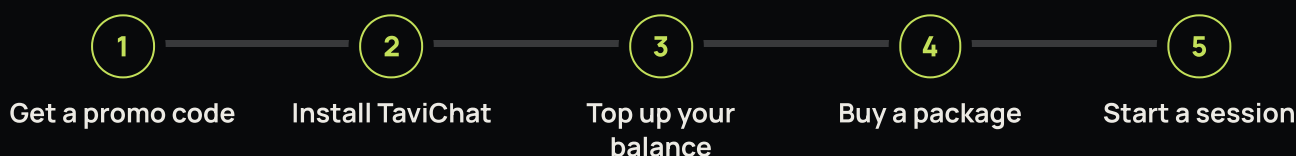

A registered company

CYBERBOT LTD, number SC565548 at Companies House — the UK's official register of companies.

— Get started

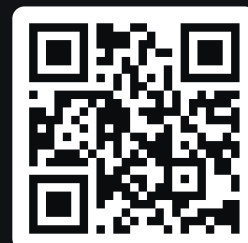

Launch your agent.

Sign-up is by invitation only. Ask the person who sent you this presentation for a promo code – and in a few minutes the agent starts working for you.
